SOLUTIONS

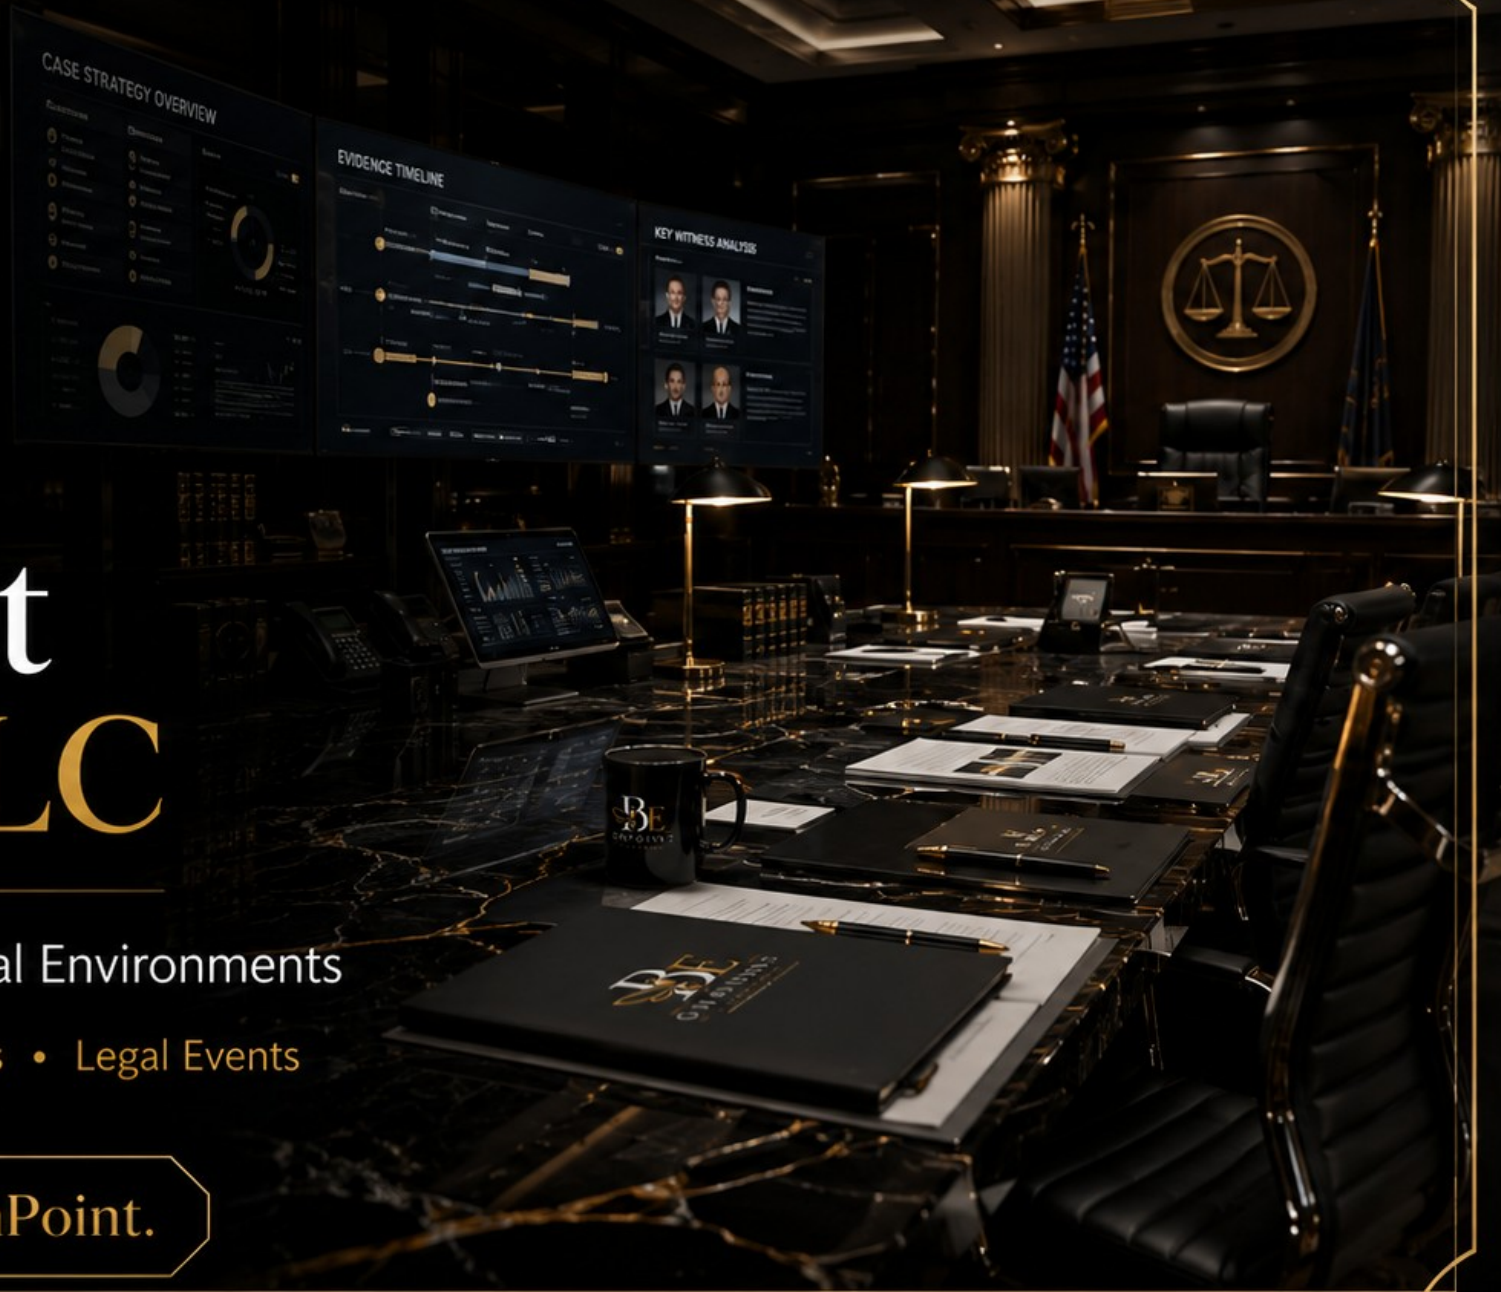

BE OnPoint Solutions, LLC

Strategic Execution for High-Stakes Legal Environments

Trials • Hearings • Arbitrations • War Rooms • Legal Events

Coordinated. Controlled. OnPoint.

The Command Center for High-Stakes Legal Execution

BE OnPoint Solutions supports law firms with the behind-the-scenes execution required for trials, hearings, arbitrations, war rooms, and legal events.

What We Do

We coordinate technology, vendors, logistics, setup readiness, and issue resolution.

Why It Matters

High-stakes legal teams should not have to manage operational chaos while preparing for the matter itself.

The Result

When your team walks in, the environment is prepared, organized, and ready.

Single point of control. Greater confidence. Better execution.

Why Law Firms Work With BE OnPoint

High-stakes legal execution requires more than placing an equipment order.

Single point of coordination

Clear vendor and venue communication

Delivery timing and access planning

Setup verification and readiness confirmation

Reduced last-minute operational risk

The equipment matters.
The execution around it matters more.

What We Coordinate

1 Trial and Hearing Technology

Courtroom displays, monitors, audio, and presentation support.

2 War Room Setup

Printers, copiers, monitors, networking, and workspace readiness.

3 Vendor Communication

Centralized coordination across partners, delivery teams, and venues.

4 Logistics and Access Planning

Delivery windows, loading docks, after-hours rules, and strike coordination.

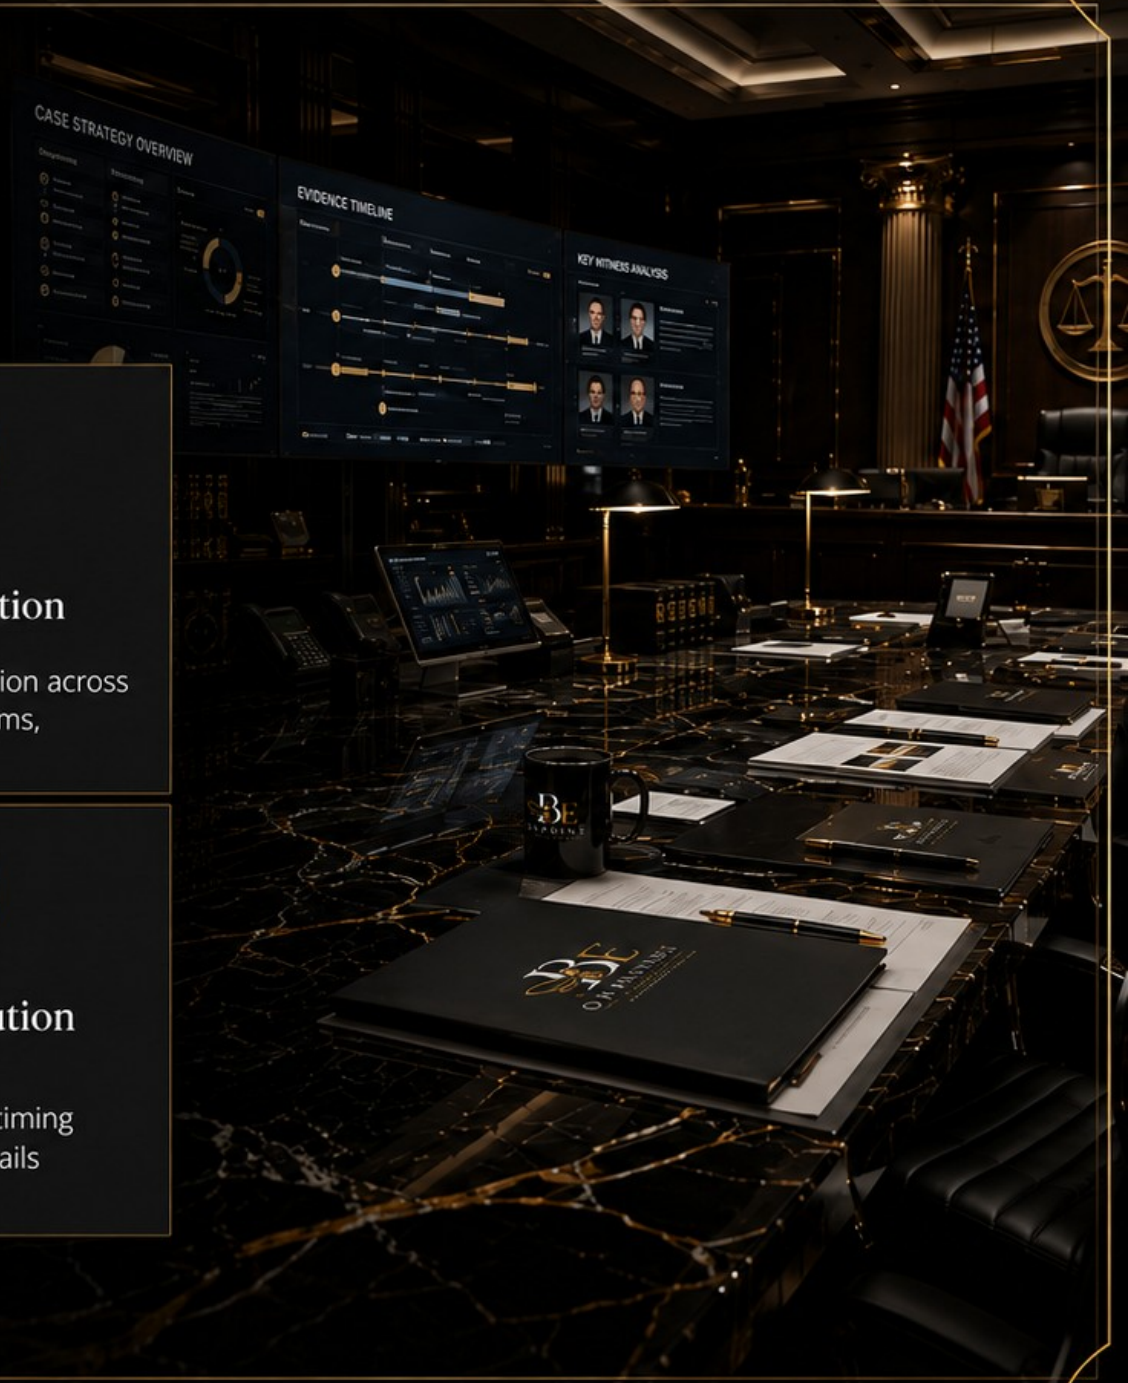

5 Setup Readiness Verification

Confirmation that equipment is installed, connected, and ready.

6 Issue Resolution

Rapid support when timing changes or setup details shift.

Coordinated. Controlled. OnPoint.

Common Engagements

Purpose-built coordination for the environments legal teams depend on most.

Courtroom Technology Setups

Displays, audio support, and presentation readiness for trial teams.

War Room Buildouts

Printers, copiers, monitors, connectivity, and organized working environments.

Arbitrations and Hearing Rooms

Streamlined technology and logistics for high-stakes proceedings.

Legal Events and Overflow Spaces

Coordinated support for meeting rooms, overflow rooms, and legal programs.

Coordinated. Controlled. OnPoint.

The OnPoint Difference

BE OnPoint Solutions serves as the **single point of control** between the legal team and the moving parts behind the matter.

- One accountable point of control
- Fewer communication gaps
- More predictable execution
- Confidence before the matter begins

Coordinated. Controlled. OnPoint.

PREPARE
PLAN
EXECUTE
DELIVER

Founder-Led Execution

BE OnPoint Solutions was built from firsthand experience supporting legal teams in high-pressure environments where **timing, technology, vendors, and logistics** all have to come together.

Legal environment
fluency

National coordination
mindset

Hands-on readiness
oversight

Calm issue resolution
under pressure

Built to bring structure, accountability, and care to every engagement.

Ready to Support Your Next Matter

Whether you are preparing for a trial, hearing, arbitration, war room, or legal event, BE OnPoint Solutions helps bring structure, communication, and control to the execution process.
